percentage 84

### SECONDARY SCHOOL

*Bardsely English Medium school , katni 2017*

cgpa 7.6

## SKILLS

mysql

java

front developer

python

Data Structure Algorithm

## WORK EXPERIENCE

### OASIS INFOBYTE | ONLINE MODE

Well I was actively looking for internships in my interest Web Development, then I got to know through LinkedIn that Oasis Infobyte is providing internships opportunities to the students. I quickly applied to the internship as it was my Firth internship and I was excited about the selection. I was happy after receiving the congratulatory mail.

There were 3 tasks given in total and to get our certificates we had to perform at least (3tasks) for the certification.

The Tasks which I performed were as follows:

#### TASK 1

In this task, we had to create a To do list website using HTML and CSS. I thoroughly enjoyed working on this task.

#### TASK 2

In this task, we had to create a calaculator website using HTML and CSS. I thoroughly enjoyed working on this task.

#### TASK 3

In this task, we had to create a tribute website using HTML and CSS. I thoroughly enjoyed working on this task.

### JP MORGAN | INTERSHIP | ONLINE MODE | Jun 2022 - Jan 2023

During this winter break, I wanted to immerse myself more in the world of computer science and software engineering. It was a great chance to grow in terms of getting exposed to different languages and expand on my current skills.

I found a really cool opportunity presented by JPMorgan and Chase and wanted to reflect on my experience.

It was a great chance to grow in terms of getting exposed to different languages and expand on my current skills.

I would definitely recommend this experience to others to try and learn more about how JPMorgan and Chase uses computer science to handle their everyday business.

### GOOGLE CLOUD | interhip | indore | Dec 2022 - Jan 2023
